

School Council: February 2017-18.

All the children who have been School Council this year have been an absolute credit to themselves, their classes and the school. They began their journey by nominating themselves for the role of School Council, a daunting prospect for some children. After presenting to their classes and being elected to the role, they successfully began their journey in February. To signify the ending of the old School Council and the beginning of the new, we planted apple trees in the quiet area and on the school field.

Some of the things the children have done this year;

- Organising the Children in Need event in our school
- After charity events, counting the money and informing whole school of amount raised
- Decorating our school for the Christmas celebrations
- Monitoring the cloakrooms, scoring on a daily basis
- Collecting pupil voice from their classes, awards for achievements i.e. attendance award
- Note taking during meetings to present information back to their classes - to ensure pupil voice is recorded
- Writing letters to parents regarding whole school charity events
- Addressing whole school with notices during Collective Worship
- If the children in their classes have raised a concern or query, school councilors address these during meetings
- Organising a thank you celebration for the opening of the pond and Quiet Area
- Voting on the names of the new classes for 2017-2018
- Organising and hosting a thank you tea party for the volunteers in our school
